## Summer Undergraduate Research Experiences in Florida

Discover cutting edge research in a major department with more than 250 graduate students

Discover what research and teaching is like at a top HBCU

Publish a peer-reviewed paper

Live with international undergrads from South America, Europe and Africa

### The REU Program at the University of Florida and Morehouse College

#### Locations:

Gainesville Florida – the University of Florida

Gainesville and field locations – the Florida Museum of Natural History

Atlanta, Georgia – Morehouse and Spelman Colleges

In addition to a 11-12-week project in an outstanding research group, participants are funded for housing, and a post-program poster session in sunny Florida in January and most are guaranteed an international REU experience the following summer. A perfect experience for motivated and high ability sophomores and juniors.
