The US/South America REU Program in Chemistry and Molecular Biodiversity

Stipend and funding package >\$7,000

Summer Undergraduate research experiences in Brazil and Argentina

Publish a peer-reviewed paper with international co-authors

Learn a new culture and language (there is no language requirement)

Know a little Spanish? You will be functional in Brazilian

Portuguese in a few days and

may be fluent by the end of the summer!

Locations:

Brazil: University Sao Paulo, Campinas University, State University of Sao Paulo at Araraquara

Argentina: University Buenos Aires, Leloir Institute

In addition to a 12-week project in an outstanding research group, participants are funded for housing, a predeparture meeting in Washington DC, and a post-program poster session in sunny Florida in January.
